- Adobe cc

My favorite Project Selection

Isabel Group (fintech) - Frontend Developer - Multiple Projects (see below)
- **zoomit.be**
- **codabox.be**
- **seven.isabel.eu**
- **clearfacts.be**
- **kube-kyc.be**
- **trulius.be**
- **signhere.be**
- **isabelgroup.eu**
- **bookmate.be**
- **...**

Within Isabelgroup, I am working as a frontend developer. I work closely with both UI/UX designers as well as (backend) developers. Making sure we all align on what is desired/required by our key stakeholders as well as making sure we can deliver the highest quality standards for both performance and accessibility.

Having a great eye for details is one of my key assets in this.

GopaCOM - Frontend Developer - Multiple projects (see below)
- **2030Isnow.eu**
- **GopaCOM.eu**
- **Oacps-ri.eu (still in development)**

For GopaCOM, I am working as a frontend developer, in close collaboration with our UI/UX designers. Each project at GopaCOM has a political nature. (EU or EC)

Degrees

2016	**Graphic Design**	
	Degree	
2016	**Web-animation & production**	
	Degree	
2017	**Interface design & Digital Image Processing**	
	Degree	
2017	**Web Designer & Front-end developer**	
	Degree
